Website [Theoi.com](http://Theoi.com)

February 12, 2013

[Theoi.com](http://Theoi.com) is a site that has compiled the stories and entities of Greek mythology into a convenient encyclopedic format. It contains a synopsis of almost everyone (and everything) Greek, entire works in the [texts](#) section and an array of [red and black vases](#), mosaics and sculptures. So if your copy of [Edith Hamilton's](#) *Mythology* is currently out or your high schoolers are reading an *Iliad* with no index (or you did poorly on this little [Harry Potter quiz](#)), whatever your reason, give theoi a look the next time you need to clear up an allusion.
