As shocking as it seems, quite a few of our users use multiple technologies, and are willing to take their library materials in any of several physical formats. Rather than looking for only DVDs, for example, some folks may also have Blu-ray technology, and/or also still have (gasp!) VHS players. Rather than looking for each material type individually, you can select several at once... Give it a try, if you haven’t yet!

Enter your search term(s) as usual, from the ‘Advanced’ search screen.

When selecting Material Type, hold down the CONTROL key until you finish clicking on your choices.
