

Tuesday's Tip

information provided by Adriance Memorial Library to make your life a little bit easier

Reverse image search

December 11, 2012

[Google images](#) allows you to search the web using an image instead of a word or phrase. This is handy for just about anything, particularly when you are trying to identify artwork or a photographic image. It may also help attribute a recently downloaded image for a school project or simply satisfy that burning personal desire to know who, where or what you are looking at.
