December 26, 2017

Plan on traveling more in 2018? Already use Gmail and Google maps?

Try Google's travel app Google Trips. It's FREE.

Bon voyage! www.google.com/trips

Install the Google Trips app on your IOS or Android Device

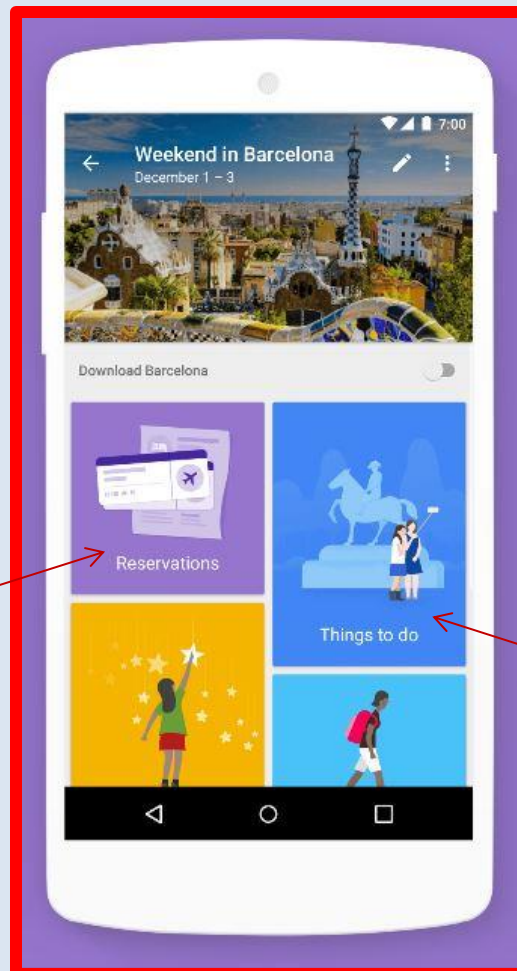

Google Play

Once installed on your tablet or smartphone the Google Trips app will appear as a small suitcase.

Google Trips collects your flight, car, and hotel reservations into one place by accessing your travel reservations from your Gmail account. In addition, it provides information on top attractions, dining and local shopping.

What is even more helpful is that all this information is available offline if you download it ahead of time.

No need to worry about poor cellular service when traveling.

Happy Travels in 2018!
