GIPHY: Create your own GIFs

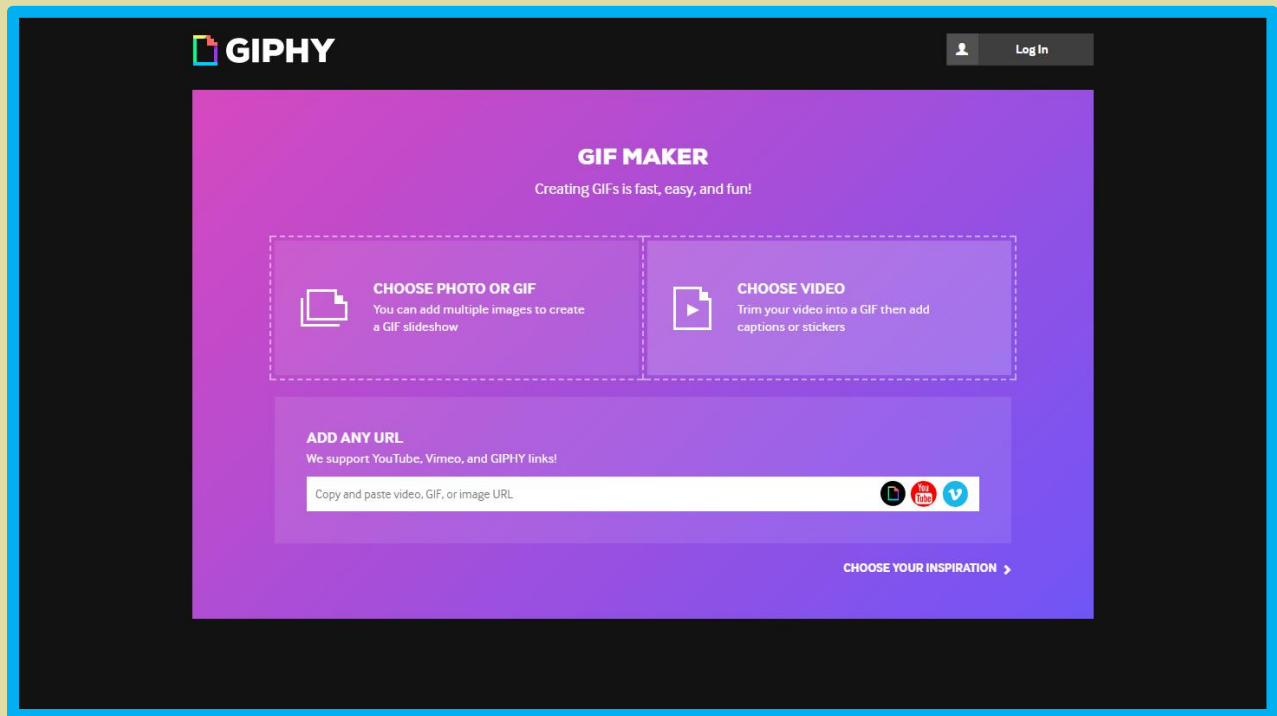

January 2, 2018

You can upload videos or photos and make your own GIFs or use one that is already posted.

Click on Create.

You will come to this screen:

Once your pic or photo is uploaded you can add a caption and add different effects to the caption. You will also receive a URL for the GIF you made to share it on social media or with your family and friends. Have fun! It is simple and inspirational if you have videos and photos!

Here is an example I made for the holidays:

Happy Creating!
