And enjoy a thorough trail guide with pictures, maps, and GPS directions for parking!

Trail guide:

1. From the parking area just past the guard shack, head uphill to find a shortcut through the woods near the last parking spot, on your right. Head up the shortcut towards the beginning of several trails.

(This place is laced with trails heading all over the place – please follow this trail guide very carefully, and you'd do well to follow along on the map they'll provide at the guard shack, too. It's easy to get lost during your travels around Bonticou, and while most trails and intersections are excellently marked, some aren't marked at all.)

2. Keep heading straight across Spring Farm Road. A gate will be on your left as you cross the road and hop on the Crag Trail on the far side, turning left to keep going uphill, parallel to Spring Farm Road.

3. Follow the blue blazes uphill. In about two minutes, you'll come to a four-way intersection. Turn right to hop on the red-blazed Crag Trail.
