Historical Stock Prices

There are several ways to find historical stock prices for a company. Some companies offer historical pricing information on their website. Yahoo Finance is a popular tool and probably the easiest to navigate. The Historic New York Times is another resource that you can use to find historical daily prices of a stock. Using IBM as an example I will demonstrate how to research the past prices in these three ways.

COMPANY WEBSITE:

You can usually find it in an “investor relations” or “investor services” page on the company’s home page:

For more information or other reference and collection development assistance, call the Reference & Information Desk at Adriance Memorial Library at (845) 485-3445 x 3702 or (800) 804-0092 x 3702.
For more information or other reference and collection development assistance, call the Reference & Information Desk at Adriance Memorial Library at (845) 485-3445 x 3702 or (800) 804-0092 x 3702.
Depending on the period, you may find the company name or the abbreviation of the name instead of its ticker symbol. Since the price should be adjusted for split factor you may need to contact the company or do further research once you find the price for a date.

If you need research assistance, please feel free contact to the PPLD reference desk at 845-485-3445 ext. 3702.
